### **DETAILED ACTION**

This action is responsive to communications: original application filed 3/27/2001.

Claims 1-30 are currently pending in this application. Claims 1, 16, 22, 26-29 and 30 are independent claims.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claim 1-26 and 30, drawn to authentication system, classified in class 713, subclass 201.
- II. Claim 27-29, drawn to data packet, classified in class 709, subclass 227.

The inventions are distinct, each from the other because of the following reasons:

Inventions authentication system and data packet are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention ( I ) authentication does not need particulars of the data packet and it can be used with any data packet or in non packet based environment ( II ) has separate utility such as data packet (e.g. *error packets*) can be transmitted without providing authentication. See MPEP § 806.05(d).

Art Unit: 2134

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I authentication manger is not required for Group II data packet, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Poltorak whose telephone number is (571)272-3840. The examiner can normally be reached on 9 - 4:30 (M-Th).
